SUMMARY

B.Tech Computer Science Engineering student with hands-on experience in web development using Java, JavaScript, HTML, CSS, Node.js, and databases. Currently developing CampusOS, a full-stack student management platform with authentication, academic modules, REST APIs, and AI-powered assistance. Strong foundation in Data Structures and Algorithms with regular problem-solving practice. Interested in building scalable and user-focused web applications.

PROFESSIONAL EXPERIENCE

C Development Intern 06/2025 – 07/2025
CodSoft
• Developed programming projects during the internship, applying programming fundamentals and problem-solving concepts.• Built a Tic-Tac-Toe game as part of the internship.• Practiced debugging and code implementation.

EDUCATION

B.Tech Computer Science Engineering Student 07/2024 – Present | Vadodara, Gujarat
Parul University
CGPA: 6.98/10

Class XII – Science 05/2023 – 05/2024
Shri Vinayak Academy
Percentage: 76.8%

Class X 05/2021 – 05/2022
Suraj Gyan Mandir
Percentage: 70.4%

SKILLS

Programming Languages:
Java, Python, C, JavaScript

Web Development:
HTML, CSS, React.js, Node.js, Express.js

Database:
MongoDB, MySQL

Tools & Technologies:
Git, GitHub, VS Code, GitHub Desktop

Core CS:
Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks

CERTIFICATIONS & BADGES

Python — IBM | **Statistics** — IBM | **AWS Badge** — Certiport | **HTML, CSS & JavaScript Badge** — Certiport

PROJECTS

CampusOS – Student Management & Learning Platform 08/2026 – Present
Full-Stack Web Application
- Developed a full-stack student management system with dedicated student and admin dashboards.
- Implemented authentication, assignments, notices, academic information, and student management modules.
- Integrated an AI-powered AI Tutor using a backend API for interactive student assistance.
- Built responsive web interfaces and connected frontend components with REST APIs.
- Integrated MongoDB for storing application data and chat interactions.
- Used Git and GitHub for version control and project maintenance.

Hotel Booking Website
Web Development Project | Live Demo
• Developed a responsive hotel booking website with a user-friendly interface for browsing available rooms.• Implemented Home, Rooms, and Contact sections with interactive navigation.• Designed room cards displaying pricing, amenities, and booking options.• Used HTML, CSS, and JavaScript to build and structure the website.

PROBLEM SOLVING

LeetCode — Solved **100+ problems** using Java, focusing on Data Structures and Algorithms.
https://leetcode.com/progress/
GeeksforGeeks — Solved **50+ problems** using Java, practicing Data Structures and Algorithms.
